

SWISS EXCELLENCE

Pharmaton SA

Your Preferred Innovative
Manufacturing Partner

Pharmaton SA

The company

Who is Pharmaton

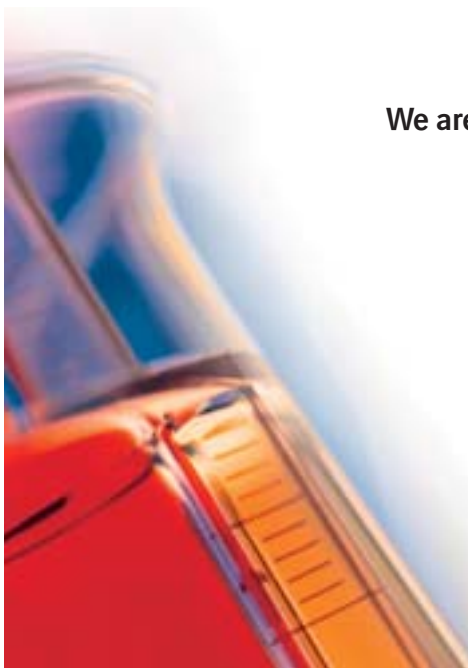

We are a well-established private Swiss pharmaceutical company. With more than 60 years of existence and international pharmaceutical success, we have been at the forefront of multivitamin, mineral and phytomedicine developments by focusing our activities on the research, development and production of products in compliance with the highest scientific standards. We have been recognized as a leading manufacturing company within the OTC and nutraceutical industry.

Alliance of success

We are consciously seeking new ways to progress. Only those who have courage, initiative for new ideas, who are open to compete and are ready to offer expertise, competence, efficiency and effectiveness can deliver precisely the support you require.

We are your competent partner

We offer a very attractive combination of pharma and nutraceutical expertise to leverage your own business needs. You gain a unique opportunity for flexible and integrated solutions across the entire process from development to the supply of products. On request we develop your idea, and our R&D department accompanies it with a full range of services. Robust data and documentation are delivered so it is easier for you to make the right decisions. We also ensure registration procedures, manufacturing and worldwide supply chain management. On time and just for you!

Pharmaton SA

We have the solution for your needs

- 60 years of expertise in world-class product development and manufacturing
- the highest standards of quality and safety with an inspected and certified manufacturing facility
- an international scientific and operational network
- an effective customer-oriented organization with outstanding business process excellence
- our range of services can cover either the complete pharma- and/or nutraceutical business chain or selected parts of it
- compliance to GMP regulations and international standards
- manufacturing flexibility, change management, reliable and fast product supply
- management of small batch size orders
- competitive prices

Innovation – Flexibility – Integration – Partnership

Customized solutions for you!

You have the idea, we make the efforts to realize it!

With our support, your requirements can be realized faster, and the product supply complies with shorter delivery times in a punctual and effective way.

Our competence is your guarantee

R&D

Innovation

- Our highly efficient R&D platform can offer product formulation studies, galenical and analytical development.
- We conduct feasibility and product-analysis research. We develop optimal approaches jointly with customers.

DRA

Regulatory support

- A highly skilled regulatory department can prepare and coordinate all necessary documentation to comply with procedures required by health authorities or other international bodies for product registration.
- Our department has the necessary competence and expertise to facilitate and expedite registrations at the international level.

Science

Medicine

- We can offer evaluations of the composition of drugs and food supplements in terms of scientific background and ingredient analysis for both mono and multi preparations.

Our competence is your guarantee

Logistics

Global supply chain

- With a fully integrated process, we take care of customer demands, the procurement of materials, inventories and supply of products on a worldwide level.
- We assist our clients in designing the proper logistics network to ensure and maximize the process chain.
- Our international network offers direct links to suppliers, production at our Swiss facility and/or with our partners.

Production

Liquid and solid forms

We operate through modern and state-of-the-art working centers with the highest standards of quality. A project for the deployment of semi solid products is ongoing.

Our capabilities

Solid forms:

- > tableting
- > tablet coating
- > hard gelatine capsules (powder and pellets filling)
- > soft gelatine capsules (in cooperation with one of our Swiss key partners)

Liquid forms:

- > solutions
- > syrups and tonics

Packaging

All functions

Complete range of packaging services with highly customized options.

Our capabilities

- > solids in blister (Alu/PVC-PVDC, Alu/Alu and PP)
- > blister and/or solids into sachets
- > solids in glass bottles
- > solids in plastic bottles/containers
- > liquids in glass or plastic bottles
- > personalization of final packaging (shrinking, bundle-pack, tamper evident, etc.)

Quality and safety

Full compliance

- The management of quality, safety and the environment is a well-established function within our company.
- Very modern and well-equipped QC laboratories ensure control of products from physical and chemical to microbiological analysis for raw and packaging materials, bulk and finished goods.
- Analyses are performed according to the most modern and state-of-the-art methodologies and technologies.
- Our facility is in full compliance with GMP and Swiss federal environmental laws and directives. Environmental protection and safety are ensured by very strict internal company standards and best practices.
